PROFILE

Passionate Front-End Developer with 2 years of experience in creating dynamic web applications. Skilled in **React.js**, **Next.js**, **Tailwind CSS**, and **Redux Toolkit**, with a focus on delivering impactful user experiences and driving business growth. Excels in cross-team collaboration and eager to contribute to innovative projects.

EXPERIENCE

Lesoll, Frontend Developer 🔗

Jun 2023 – present

E-commerce

- Built and maintained a responsive, SEO-optimized property browsing platform using React and Next.js
- Transformed Figma designs into clean, accessible, mobile-first UI components
- Collaborated with backend engineers to integrate property listing, search, and filtering APIs
- Deployed the platform to AWS for improved scalability, reliability, and performance
- Refactored legacy code for enhanced maintainability and load speed
- Implemented best SEO practices to improve Google rankings and drive organic traffic

Dashboard & Analytics

- Developed a full-featured dashboard for managing site content, listings, and user activity
- Built real-time analytics views to monitor traffic, listings performance, and user behavior
- Implemented complete CRUD functionality for properties, agents, categories, and users
- Designed scalable, intuitive UI components for admin workflows and content moderation

Next.js - TypeScript - HTML - Tailwind CSS - Redux - Redux Toolkit - I18n - Framer Motion - AWS - EC2 - Google Maps - Figma - Postman - Restful API - nginx - Linux - Bash - Git - Github

PROJECTS

Dorymart 🔗

- **Dorymart** is a playful, fish-themed e-commerce platform inspired by *Finding Nemo*, built to explore modern frontend practices. Features include dynamic product listings, a cart system, and smooth GSAP-powered UI animations.

React.js - Next.js - Tailwind CSS - Redux - Redux Toolkit - GSAP - Shadcn Ui

Career Guidance Network – Graduation Project 🔗

- **Career Guidance Network** is a LinkedIn-style platform connecting students with companies. Built with React, it features role-based access, dynamic search, and a tailored UI for each user type.

React.js - Next.js - Tailwind CSS - Redux - Redux Toolkit - GSAP
